

Symetra SwiftTerm's automated application process

A fast, easy way to purchase term life insurance

Do you have young, healthy clients who want life insurance protection but are too busy for in-person meetings and medical tests? Symetra SwiftTerm's automated application process offers them a faster, easier buying experience and greater control over their time.

Our process is automated end-to-end: from application, to offer, payment and policy delivery. With three potential underwriting paths:

1 Instant coverage

A client who qualifies can get coverage in as little as 18 minutes. Premium payment is required for coverage to be in effect.

2 Accelerated underwriting

During electronic screening of a client's medical and lifestyle history, we may find that we need a little more information. Your client will receive an email letting them know and we'll keep the underwriting process moving!

Qualified applicants receive an email confirming approval of their application for coverage within 24-72 hours with instructions to complete the online onboarding process.

3 Full underwriting

Occasionally, we may find additional medical records or an exam is needed. Your client can schedule a medical exam online and we will be in communication with both of you throughout the process. Qualified applicants receive an email confirming the approval of their application in about 30 days with instructions on how to pick up online where they left off.

Whatever the underwriting path, SwiftTerm® offers all applicants who qualify for coverage one convenient digital experience. And it all starts with you!

Let's take a closer look at the process for a client who qualifies for instant coverage. 

Digital Application

You start the application process, then your client gets a link to finish the rest!

No cumbersome paperwork or uncomfortable telemed interview, ever!

PRODUCER

You help your client determine the amount of SwiftTerm coverage they need. SwiftTerm is available to insured ages 20-60; policy sizes \$100,000 to \$3 million. Business owned coverage is not available.

- Your BGA adds Symetra SwiftTerm to their list of available iGO® products.
- You must be licensed and appointed with Symetra to drop a ticket for SwiftTerm through your partner's iGO® dashboard.¹

Drops the ticket

The data you submit passes straight-through to Symetra's real-time intelligent application and underwriting process and sends a secure link to your client to pick up the application where you left off!

Stay informed: Stay on top of a client's progress via the usual pending case status tools on Symetra.com and iGO.

With instant coverage, your client is immediately emailed a secure link to SwiftTerm's onboarding platform to complete their purchase.

CLIENT

Client is emailed a secure link to the electronic application process.

Reminders: You and your client will be sent periodic reminders until the application is completed or the offer expires.

Tip: In addition to basic information, you'll need the social security number (SSN) and state of birth for the insured. If the owner is not the insured, you'll need their SSN, email address, phone number and relationship to the insured. You'll also need this information for any beneficiaries. If necessary, you can resend the link to your client or correct their email address in iGO.

This is not a complete description of the Symetra SwiftTerm policy or underwriting process.

¹ Insurance professionals must be appointed with Symetra before they can drop a SwiftTerm ticket. The system validates your appointment with Symetra before the ticket can be completed. If your credentials cannot be validated, a link is provided for you to notify Symetra of your request for appointment. Once appointed, you can pick up where you left off on the case in iGO. Once the ticket is dropped, you can track the progress through iPipeline iGO "View my cases" and the life pending report on Symetra.com.

² It is essential to enter the coverage information agreed on with your client accurately. If something was not accurately entered in drop-ticket, the client will be instructed during the application review step to contact their insurance professional. A new drop-ticket will have to be entered in iGO.
